📍 Poland, Gdansk Pomorskie

About

I'm a 3D and Graphic designer based in Poland. I have extensive experience in various fields of design. Such as graphic design, 3D modeling and UI / UX design. Working as designer since 2017. I am proficient in such graphic programs as Adobe Photoshop, Adobe Illustrator, Adobe Indesign, Adobe After Effects, Corel Draw and a program for creating 3D models and images - Autodesk 3Ds Max and ZBrush. I also have a high level of knowledge of Figma and Sketch.

I constantly get new knowledge and skills, and do not stop improving. I get most of the knowledge in online courses - it's very convenient and saves a lot of time, which is of great importance in the modern world;)

Nothing is impossible for me, I can study any information and apply it in my work.
